

FAKE PROPOSAL 1 - SNE IN M87 AND M31

1 Introduction

We need to observe more SNe and novae - lets look at galaxies near by for novae

2 Scientific Justification

This is the best science justification ever!

3 (*Only For ToO Proposals*) Trigger Criteria

I will do ToOs depending on the event

4 (*Only For Joint *Swift* Proposals*) Need for Joint *Swift* Observations

Gimmie Fermi time!

5 Analysis Plan

I will do work

6 Technical Feasibility

Of course it is!

7 Expected Impact

It will be amazing!!

8 Work Plan

I will do all the work

9 References

List of references. References *are not included* when considering the proposal page limit.

10 Target Table

Targets

TIC ID	Common Name	RA (deg)	Dec (deg)	TESS mag	Obj. Type	Comments
388857263	Prox Cen	217.428793	-62.679592	7.36	M Dwarf	2 min cad., RV planet
353622691	BL Lac	330.6803807	42.2777717	13.1	AGN	20 s cad.
